

TALK ABOUT YOUR FIRST JOB

Dear Parents,

Your child has been learning about different types of jobs and income, like salaries, commissions, wages, and tips, as part of a financial education unit at school. Engage in a discussion: Have your child ask you the following questions and record your answers.

1 What was your first job? _____

2 How did you get paid for your job? _____

3 What did you do with the money you made from your job? _____

Now let's talk about jobs I might be able to do now, and what I might want to be when I grow up!
